Introducing ConnectED

The Delaware County ConnectED Program is a comprehensive initiative designed to support the academic, social, emotional, and behavioral well-being of students within the county's school districts. Grounded in the belief that every child deserves access to a nurturing and inclusive learning environment, the program integrates assessment, intervention, and support services to address a wide range of youth needs.

The Delaware County ConnectED Program exemplifies a comprehensive and collaborative approach to supporting the holistic well-being of students. By identifying and addressing barriers to learning and success, the program empowers students to reach their full potential academically, socially, and emotionally, creating a positive and inclusive school environment for all.

The ConnectED Program encompasses several key components to support student success:

Counseling for Mental Health & Substance Use: Provide linkage to individual counseling, group therapy, and mental health support services to address a range of issues, including anxiety, depression, trauma, grief, and behavioral challenges.

Parent and Family Engagement: Engage parents and families as partners in the assessment and intervention process, providing education, resources, and support to promote positive parent-child relationships and home-school collaboration.

Choose MVP Recovery for a supportive, responsive, and personalized treatment experience designed to help you achieve lasting recovery.

ConnectED Services

- *Early Intervention:* Identify students who may be experiencing academic, social, emotional, or behavioral difficulties to prevent disengagement from education.
- *Collaboration:* Foster collaboration among school personnel, parents, students, and community partners to coordinate services, share information, and maximize resources.
- *Prevention and Education:* Provide prevention programs, educational workshops, and resources to promote positive mental health, social-emotional skills, and resilience among students, staff, and families.
- *Partnerships:* The success of the ConnectED Program relies on strong collaboration and partnerships among various stakeholders, including:
 - All school personnel
 - Caregivers & families
 - Behavioral health professionals
 - Medical providers & community health organizations
 - Community organizations providing enrichment programs
 - Local government agencies and policymakers
