

**Family Interventionist
Request for Proposal #HS-000018 CW
Questions & Responses**

Does the responding program need to be already licensed in Delaware County to provide this service? This is in reference to this statement... 'contract with a mental health provider.' **The Department of Human Services will consider all interested providers, in or outside Delaware County.**

Is the position required to be a licensed clinician? **The position requires a licensed clinician with mental health experience.**

On average, how many individuals/families served per year? **An average cannot be provided for a new program; we estimate approximately forty families per year.**

Is there a budget cap for this project? **Interested providers should submit a reasonable budget to support their proposal.**

I don't see a list of proposal questions. Usually they are posted under the "Technical Proposal Requirements." Can you advise? **Due to issues beyond our control, posting responses to submitted questions was delayed.**
